EDUCATION

2023 - Present	PhD. in COMPUTER VISION Mohamed bin Zayed University of Artificial Intelligence (MBZUAI) GPA: 3.90/4.0 , <i>First Class Honours</i> .
2021 - 2022	Master of Science in COMPUTER VISION Mohamed bin Zayed University of Artificial Intelligence (MBZUAI) Thesis: "Adversarial Pixel Restoration as a Pretext Task for Transferable Perturbations." GPA: 4.0/4.0 , <i>First Class Honours</i> .
2014 - 2018	Bachelor of Technology in ELECTRONICS AND COMMUNICATION ENGINEERING National Institute of Technology, Srinagar (NIT) Thesis: "Channel Estimation for Wireless Communication systems, using least-square method." GPA: 8.48/10.0 , <i>First Class Honours</i> .

WORK EXPERIENCE

Jan.2021 - Present	Graduate Research Assistant Intelligent Visual Analytics Lab (IVAL), MBZUAI, Abu Dhabi, UAE Working on evaluating robustness of uni-modal and multi-modal vision-based models.
Mar.2019 - Jun.2019	Research Intern Robotics Research Center - IIIT Hyderabad, India Worked on Motion segmentation and estimating depth from multiple views for autonomous navigation of cars using deep network based framework.
Jul.2018 - Mar. 2019	Computer Vision Engineer Cingularity TEC India Pvt. Ltd., Bangalore, India Built Computer Vision Systems involving License Plate Recognition, Vehicle Recognition and Counting vehicles in malls and parking lots.
Jul.2018 - Mar. 2019	Project Assistant Computational Intelligence Lab- IISc, India Developing frameworks using deep convolutional neural networks for classification/detection of diseases in Sugarcane. Implementing models to detect different type of damages in vehicles.

Disease Recognition in Sugarcane using Deep Learning, International Conference on Artificial Intelligence and Data Engineering (AIDE 2019). Published in Advances in Intelligent Systems and Computing, Springer (2020) [[Paper](#)]

RESEARCH INTERESTS

Intrigued by the vulnerability of deep neural networks in both i.i.d and non-i.i.d settings, I am focused on designing methods and benchmarks to expose their limitations and uncover deeper insights into their weaknesses.

ACADEMIC SERVICE

REVIEWER ECCV, BMVC, WACV

HONORS AND AWARDS

MAY. 2020 **MSc.** Awarded Postgraduate Research Scholarship by Mohamed bin Zayed University of Artificial Intelligence (MBZUAI) for the period of two years.

JUNE 2018 Qualified National Level Graduate Aptitude Test in Engineering(GATE).

JUNE 2018 Among top 15 percentile of the class of Bachelors in Electronics and Communication.

JUNE 2014 Qualified National Level Joint Engineering Entrance(JEE) for admission into NITs.

JUNE 2013 15th Position in the State Level Board Exam of grade XII.

COMPUTATIONAL SKILLS

PYTHON EXPERT KNOWLEDGE- I am extensively using python to build novel machine learning algorithms for the last few years.

PYTORCH Pytorch is usually my default choice due to its dynamic nature and object-oriented graph design approach.

KERAS I have used Keras with Tensorflow before and have gained decent familiarity with it.

MATLAB Most of my Bachelor projects have been done using Matlab.

C I scored A grades in the language in my B.Tech course.
